

David Coppedge

The Cassini Legacy at Saturn

This presentation contains numerous images from the Cassini Probe mission program and will include major discoveries of the Saturn System from - the planet itself, its rings, moons, magnetic field, and the giant moon Titan.

David Coppedge worked at Jet-Propulsion Lab on the Cassini mission for 14 years. David is a very active creationist. He has led the southern California Bible-Science Association for 25 years, and is a popular speaker and writer, having written for ICR, CMI, and his own science news website, Creation-Evolution Headlines (<http://crev.info>) for almost 20 years.
