Time is one of the three created elements of the Time/Space/Matter continuum. God is recognized as the architect & designer of matter and life. He is also the architect of Time.

Many in the church believe that the age of the Earth or the speed of creation are just side issues which actually hinder our gospel presentation.

We will look at these issues as well as looking at the created nature of Time, its design and structure in the Bible's architecture.

James is the former director of the Genesis Foundation a Biblical Creation ministry, located in Wisconsin. In this role, James has spoken all over the USA on multiple topics within ***Biblical Creation*** .
