

***“Mutations:
Drivers of
(D)evolution”***

**Michael
Bittner**

This presentation will examine one of the basic drivers of evolution which, if not valid, falsifies the theory. Michael used to accept the possibility of theistic evolution. Find out why he doesn't anymore. Once and for all, are mutations driving evolution or *devolution*?

Michael is an educator, having studied science from the secular and creation perspective. He is absolutely convinced of a recent, miraculous creation conveyed in the Biblical account and supported by physical evidence in the natural world.
