

***“The
Cambrian
Explosion
— from a
Christian
Perspective”***

Michael Weeks

Why do many fossils suddenly appear in Cambrian strata, without any ancestors preceding them?

This program will compare the standard evolutionary explanations with the biblical alternative.

Michael has a B.S. Degree in parks and conservation from Humboldt State University.

He has been a park ranger for most of his professional life and retired as a park ranger for the Colorado Springs Parks and Recreation Dept. in 2013, having worked at seven open space parks in the Springs. He has also worked for BLM & Colorado State Parks.

Michael has collected rocks and fossils for most of his life and he has donated fossils to the Creation Museum and to Alpha Omega Institute.

PPCF sponsors a monthly educational meeting in Creation Apologetics & Biblical Creation Science

**@ 1 to 2:45 P.M.
on 2nd Saturday of the
month**
